

Established in 1992, the Integrated Group Ltd (Integrated) is a national, generalist, provider of recruitment, labour hire and managed labour services. As a recruiter of both blue and white collar candidates, we provide innovative, cost effective and complete employment solutions on a National scale.

Integrated's branch network consists of over 30 branches spread across metropolitan and regional locations throughout Australia and a single branch location in Auckland, New Zealand. This extensive network allows Integrated to adopt a localised approach with the support of a national team.

Integrated is recognised as one of Australia's leading National recruitment companies, Our success is primarily due to a range of unique services that set us apart from other players in the industry.

To begin with, Integrated forms a part of the Programmed Group, a \$1.30 billion listed company specialising in the provision of staffing, maintenance, oil & gas and project services. This impressive range of services allows Integrated clients to tap into an entire network of programs.

Secondly, our safety program, Target Zero is second to none within the recruitment industry. Under the guidance of our CEO, and lead by our General Manager HSE, over the past six years Integrated has strived to continuously meet and exceed the injury reduction targets it has set for itself. As a direct result of the processes, procedures and strategies designed, implemented and maintained by our HSE Team and actively supported by our entire branch network, we have achieved a 25 per cent or greater reduction in lost time injuries year on year, a figure that exceeds our annual target and is something we value highly. Integrated continues to develop safety strategies. We are committed to our TargetZero safety program and are proud to be at the safety forefront within the recruitment industry. Our clients recognize the paramount importance of safety in their workplace and that is why they choose Integrated as their number one agency.

At a local, state and national level, we customise our recruitment and labour hire services – from the provision of a single employee through to a complete managed labour force. Our solutions are readily scalable and supported by a team of professionals with experience in Industrial Relations, Human Resource Management and HSE.

Integrated also proudly supports a variety of local, state and national sporting clubs and relishes the prospect to be part of the local community across the country. We sponsor many local sporting teams and our team actively gets involved through our vast branch network. Along with local sponsorship, Integrated also sponsors some elite sporting groups

too. We are the major sponsor for AFL's Fremantle Football Club along with Coaches sponsor for Kevin Sheedy and NSW's Team GWS.

At Integrated our values are central around providing a National, streamlined, superior service whilst still always acting local. Our clients and the community around us are pivotal to the success of Integrated for both our candidates and clients alike.

**Integrated, first choice for people.**
